### Social and Emotional Learning Resources

*“As teachers help students achieve new college and career readiness standards, using teaching practices that promote student social and emotional learning in the classroom will be crucial to student success.”*

AIR has developed online resources for teachers—they were developed for day school but can be adapted for use in adult education.

### Here are a couple descriptors from Fritzwire:

**1. The SEL School: Connecting Social and Emotional Learning to Teaching Effectiveness.** *This website helps teachers, school and district leaders, and state education agencies to collaborate in connecting social and emotional learning to effective teaching through several new resources, including:*

*Social and Emotional Learning in the Daily Life of Classrooms. Professional Learning Module | April 2014*

*Integrating SEL into existing initiatives, including teacher evaluation, Common Core State Standards implementation, and professional learning, is no easy task. In this professional learning module, state and district leaders can work together to:*

- o Deepen knowledge and skills for integrating a SEL emphasis into your policy and planning work.*
- o Strengthen connections between SEL, Common Core State Standards, and your teacher evaluation and professional development systems.*
- o Learn strategies for supporting school leaders in guiding teachers' to reflect on their own teaching practices and*

### *social-emotional competencies*

*The module includes six hours of hands-on activities and material that are designed to be customized and adapted to state or districts' unique needs. You can download PDF copies of the material or request copies in Microsoft Word format by emailing [gtlcenter@air.org](mailto:gtlcenter@air.org).*

## **2. Self-Assessing Social and Emotional Instruction and Competencies: An Online Tool for Teachers | April 2014**

*As teachers help students achieve new college and career readiness standards, using teaching practices that promote student social and emotional learning in the classroom will be crucial to student success. With this online tool, your teachers will be guided, step-by-step, to self-assess and reflect on 10 teaching practices that support social and emotional learning for students.*

*The self-assessment tool, however, goes beyond these 10 teaching practices. Teachers also need to strengthen five core teacher social and emotional skills to implement the 10 teaching practices successfully. Teachers can take the self-assessment individually or you as part of a professional learning activity with a group of teachers.*
