 A Word from our Sponsor/Partners

Greetings Adult Education Directors:

In January 2014, Educational Testing Service (ETS), a leader in assessment development worldwide, launched a more affordable, more accessible high school equivalency test. The ETS High School Equivalency Test (*HiSET*®) includes elements that are critical to providing educational opportunities for those who need a second chance to succeed.

The HiSET program, designed by ETS and Iowa Testing Programs addresses the needs of states, educators, policymakers, employers and test takers.

More accessible. The HiSET exam is widely available in both paper- and computer-based administrations through existing testing locations, offering a smooth transition. It is also available in both Spanish and English languages.

More affordable. Cost is not a barrier to using the HiSET program. The single pricing model includes all costs — from registration to scoring and reporting. Up to two free* retests per subtest are included for up to 12 months from the original date of purchase. The maximum number of tests per subtest is three per calendar year.

HiSET is excited to now be currently offered in 17 states and territories. Since our launch over 80,000 individuals have taken the HiSET. We've come a long way since January 2014 and that is a testament to the committed Adult Ed staff in your respective states. We look to continue to support the important work of NAEPDC for many years to come. For more information on HiSET, please visit us at <http://hiset.ets.org>

*Please note that only the test itself is free; test center fees may still apply and students are advised to check with their local testing center for detailed pricing info.
