Exciting Coming Event for State Staff

The NAEPDC Executive Committee has been pleased with the Leadership Excellence Academies which provide local directors the skills and resources they need to manage and lead continuous improvement adult education programs.

State Staff Leadership Excellence Academies: The Executive Committee has included in the Plan of Work the development of Academies for state staff members.

State Staff Members:

- Are the “go-to” resource for local programs
- Take the lead on developing, implementing and evaluating state-wide initiatives of all sorts
- Provide technical assistance to low-performing programs
- However, they received very little professional development to improve their skills and provide them resources to do their many critical tasks.

For the past few months, the State Staff Workgroup has been in the process of developing a State Staff Leadership Excellence Academy that will provide ‘badges’ for specific state staff related modules.

The first module to be piloted this fall focuses on “How to manage and lead state-wide initiatives”—a task that many state staff are asked to perform.

Look for more details in your email soon.
