NAEPDC

News, Views, and Clues

January 4, 2018

Dear Colleagues:

States that use the LiteracyPro LACES data system may be interested in joining the group described below by Colorado State Director Danielle Ongart.

Colorado has agreed to convene and lead a LACES users group, an idea that came about at the fall NRS trainings since we know multiple states use LACES. Based on conversations with some states that use LACES and with the LiteracyPro team, the users group would likely:

- discuss and develop recommendations for future releases and share that information with LiteracyPro
- share the types of customizations that states have already purchased and explore cost sharing for future customizations
- share best and promising data monitoring and analysis practices

We anticipate the group would meet virtually every other month and may share documents and ideas in between meetings.

If you are interested in joining the LACES users group please email Danielle Ongart (ongart_d@cde.state.co.us) by Friday, January 12, 2018.
